

Dear Student,

Open book examination is all about time management and selecting the right content from the given study material. Many of our friends commit the mistake of writing (copying) the whole content from the material without considering the valid points which ultimately kills the time. So we need to have patience. At the same time the greed to write more and more encompassing irrelevant points should be curbed.

This master index has been prepared with the help of the Institute's study material (published on March 2014 – printed mat). It is worth noting that the content table of the original mat does not cover the sub divisions of the topic which makes it difficult for a student to trace the exact answer from the book during the examination. Hence in order to reduce the effort and confusion of an aspirant this master index has been framed.

All the best!!

<b>Lesson 1</b>	
<b>Overview Of Banking System</b>	
Particulars	Page no
<b><u>Indian Banking System – Evolution</u></b>	
Genesis	2
Reserve Bank of India as a Central Bank of the Country	2
State Bank of India and its Associate(Subsidiaries) Banks	2-3
