

AMALGAMATION

This Chapter is called before **2002** as Combined Combination of Three Words “Amalgamation, Absorption and External Reconstruction but a Days Simply Called As “Amalgamation”.

Now come to the point: - **Amalgamation**

Basic Understanding about **Absorption, Amalgamation** and **External Reconstruction**:-

Amalgamation is of Two Types

1. In the Nature of **Merger**

2. In the Nature of **Purchase**

1 There are Some Conditions (Basically 5) that must be fulfilled for **Amalgamation in the Nature of Merger**.

- ✍ 1. The Transferor Company **must take over** all the assets and all the liabilities of the transferor company.
- ✍ 2. Assets and Liabilities **of the transferor** company will be taken over **by the transferee** company at their **book value**.
- ✍ 3. The transferee company must carry on the same nature of business as that of the transferor company.
- ✍ 4. At least **90%** of the Equity Shareholders of the transferor company must agree to become the shareholders of the transferee company.
- ✍ 5. The transferee company **must discharge** the amount of **Purchase consideration** by issuing its **Shares** to the **Equity Shareholders of the transferor** Company and if there is any **Fraction** it should be **paid in Cash**.

2 If any one or more of the above mentioned condition is/are not fulfilled, the situation is called **Amalgamation in the Nature of Purchase.**

3 **Calculation of Purchase Consideration** (There are **Four Methods** for Calculation of Purchase Consideration):-

- | | | |
|--|---|--|
| <ol style="list-style-type: none"> 1. Lump Sum Method 2. Shares Exchange Ratio Method 3. Net Assets Method 4. Net Payment Method | } | There are mainly two methods which are normally used
3 and 4 |
|--|---|--|

3. (I)

Nature of

How To Calculate:-

Assets Taken over

(-) Less:

Liabilities Taken over

NET ASSETS METHOD: (Note: Normally used in the
 _____ Purchase)

_____	###
*** Purchase Consideration	###

*** **Note:** Assets and Liabilities will be taken over at
 *** _____ revised figure if given otherwise at Book
 ### Value.

3. (II)

*** **NET PAYMENT METHOD:**

*** As per the revised **AS-14**, the amount of purchase
 *** consideration includes only those payments which
 *** are made by the transferee company to the

shareholders (Equity and preference) of the transferor company.

OR

It means no any other payment (like payment to Dissolution Expenses, Payment to debenture Holders, Payment to Creditors etc) **will be included in the calculation of the amount of Purchase consideration.**

SOME IMPORTANT POINTS TO BE REMEMBERED:

are **taken over** by the **Transferee** Company which is **Describing below the Following Word.**

👉 If Purchase Consideration is calculated by **Net Assets Method** then at the time of making Journal Entry for **Recording of Assets and Liabilities taken over** there will be now balancing figure in **Dr.** or **Cr.**

👉 While recognizing whether the Purchase Consideration will be calculated by Net Assets Method or Net Payment Method just See if there is full information is given in Question about the payment to Owners (Equity and Preference) as Purchase Consideration then PC will be calculated by Net Payment Method

Otherwise if there is any little information is missing then PC will be calculated by Net Assets Method. **For Example:** In question there is given that Preference Discharged asand Equity Discharged asand Remaining in Cash (If not possible to find How Much Cash).

Now Remaining in Cash it means we don't know how much amount will be paid in Cash. Then Net Assets Method will be Apply.

In Case of Merger all the Losses and Profits will be merged whereas in the Purchase Not.
